

Safer Internet Day is a fantastic opportunity to have a conversation with children about using the internet safely, responsibly and positively. Whether you are a parent, grandparent, foster carer, aunt, uncle or older sibling – we can all play a role in empowering children to enjoy their time online!

This year, the UK Safer Internet Centre is particularly focusing on how consent works in an online context and exploring how young people ask, give, and receive consent online. This could be in their friendships or relationships, how they take and share images and videos or how they manage their privacy and data. These conversation starters are a great way to help you talk about these issues with children.

Get the conversation started on a positive note with these conversation starters!
