

The White Cliffs Countryside Partnership & Romney Marsh Countryside partnership's **GREEN GANG**

WELCOME

WELCOME to the February edition of the Green Gang magazine produced by the White Cliffs Countryside Partnership. The Green Gang is a special programme of fun events for children and their families, that has been running for 25 years, giving children an opportunity to learn more about local wildlife, countryside and coast. Most of the events are free, although a donation is appreciated to help cover the running costs of Green Gang. You don't have to be a member to attend.

WATER IN WINTER

Winter is here and its getting colder! It is still important to think about the water around us and how it changes, here's why. If the temperature gets very cold (0 degrees) water freezes, changing from a liquid to a solid which we call ice.

Water is the only substance on earth that gets bigger (expands) when its temperature is reduced – everything else gets smaller (contracts). This is why frozen pipes can burst.

When rain is frozen it falls as snowflakes. It's fun to play in the snow, we put on gloves, coats and scarves and make hot drinks to keep us warm.

Some animals sleep through winter to stay warm, others use their feathers or fur to stay cosy. Animals and birds can struggle to find water to drink when everything is frozen.

You can help to look after water in your home and garden during winter, here are some things to do with your adult

- * Check pipes are wrapped up warm to stop them freezing – like you wearing your coat!
- * Fix dripping taps, even a small trickle can lead to a frozen pipe. If you have an outside tap, make sure that it's wrapped up too.
- * If it's very cold outside leave central heating on a low setting overnight
- * Look for ice or snow in your garden on a very cold day – never step on a frozen pond!
- * Put a small bowl of water outside so birds and animals can have a drink - Remember to replace it if it freezes.

OUR FINEST DOUR

Our Finest Dour is a project about making people understand how important the river is for people and wildlife.

Dover has a rare kind of river flowing through the town. This river, the River Dour, is a chalk stream and is fed from underground chalk aquifers which filter the water, which means it has cool clear water.

Over the next three years look out for events on the River Dour to learn about how to help it. You might want to join in one of our River Labs (see 19th and 23rd February) or litter picks or even just think of new ways to save water. Knowing more about the River Dour will help people to respect it and look after it.

CELEBRATING 30 YEARS OF WCCP!

The White Cliffs Countryside Partnership was started in 1989 as a 3 year project with 3 staff to manage, promote and educate people about the local countryside especially the internationally rare chalk grassland habitat and coast around the Dover and Folkestone area through conservation, community engagement and green tourism. Teams of local volunteers have helped make a great success with over the last 30 years, with around 300ha of downland being grazed. Volunteers are a very important part of caring for the countryside. A big thank you to everyone involved in the past 30 years and we look forward to the next 30 years! Look for our special 'Find 30' events in the Green Gang programme throughout the year.

Test your knowledge!

- ① Water changes from a liquid to a.....when it freezes?
- ② Why can it be harder for birds and animals to find water if it is very cold?
- ③ What can you do to pipes to stop them freezing?
- ④ What temperature does water freeze at?
- ⑤ Name two environmentally friendly things you can do to keep warm.

Write your answers on a piece of paper and send to the address below. The first 3 out of the hat will receive a water saving goody bag! Send your entry with your name, age and address to: White Cliffs Countryside Partnership, c/o DDC, White Cliffs Business Park, Dover, CT16 3PJ by Monday 11 March 2019.

ALL CHILDREN MUST BE ACCOMPANIED AT ALL EVENTS

Please note that children under 18 must be accompanied at all times by a parent or guardian. It is the responsibility of the adult to make sure that their children are safe and well behaved, not the responsibility of the leader of the event. Many events take time to set up beforehand, so please don't let unruly behaviour spoil the event for everyone else.

HAVE A GO AT VOLUNTEERING

Volunteer events are practical conservation days where local volunteers carry out practical work to improve the sites for wildlife and people.  The leader will explain about the work and how to use the tools. You don't have to stay all day – why not come along for an hour or two. We provide gloves, as well as refreshments, but please wear old clothes that you don't mind getting dirty or torn, and boots that protect your toes and have good grip. Bring a cold drink and packed lunch if you want to stay all day. These events can also count towards your Junior Ranger totals. Contact us on 01304 241806 for more details.

EVENTS START HERE...

Saturday 16 to Sunday 24 February 9:30am - 3:00pm
A WINTER'S TRAIL AT BETTESHANGER PARK
 Miss Hazel the Hedgehog doesn't want to sleep through the winter. Her usual plan of staying in, curling up in a nice, cosy bed of leaves and binge watching Netflix before dosing off for a five month nap have been put on hold, because what Miss Hazel the Hedgehog wants, more than anything... is to throw a party. The table is set, the party bunting is up and Hazel's come up with a long list of cheesy festive jokes to entertain her friends. But there's a problem... Miss Hazel can't find any of her guests. Can you help track down her woodland pals and get back in time for tea? Follow this self-led trail this winter – venture into the woods, unravel the riddles and complete the activities. Wellies boots advisable! **CHARGE:** £1.50 per trail booklet. Collect your pack from Cycle Hire. **INFO:** www.betteshanger-park.co.uk 01304 619227. **VENUE:** Betteshanger Park, Sandwich Road, Deal, CT14 0BF

EXHIBITION: SUNRISE AND SUNSETS AT SAMPHIRE HOE

As light from the sun travels through our atmosphere the tiny particles causes it to scatter.

Blue and violet rays have a short wavelength and are scattered more which give our sky a blue colour to our eyes.

However, when the sun is lower the rays of light have to travel through more molecules in the atmosphere so the blue light gets scattered while the other colours (red and yellow) are what we see more of.

One of the joys of winter time are the sunsets at Samphire Hoe. It is only during the colder months of the year that the sun sets over the sea. A late afternoon with mainly clear skies and some cloud can result in one of nature's most colourful wonders - a spectacular winter sunset.

Come along to the exhibition at Samphire Hoe this February to see the incredible images taken at the Hoe.

JOIN THE JUNIOR RANGERS!

Over 500 children have become Junior Rangers since it was launched. Will you be the next one to get your name in the welcome spot? Contact us for an application form, or download it from our website.

The Junior Ranger events take a closer look at wildlife and ecology. Make notes in your nature notebook to earn special Junior Ranger badges and certificates. It costs £3 to join the Junior Ranger scheme. You start as a Trainee Ranger and receive your badge and notebook. By attending the events you progress through the levels from Junior Ranger (5 events) to Peregrine (40 events). Parents, please let us know when your children have reached the levels so that we can send them their badges and certificates.

If you would like your children to join the Junior Rangers please complete the names of the children, together with your details below, and send with a cheque/postal order for £3 per child (made payable to Dover District Council) and post to White Cliffs Countryside Partnership, c/o DDC, White Cliffs Business Park, Dover, CT16 3PJ
